dreamline

connecting the world through shared dreams

The Dreamline program and mobile app creates:

an instant connection across schools through a quick, impactful unit that integrates with existing curriculum on multiple levels.

Dreamline's objective for students is to help them understand:

What matters to them deeply—their direction in life and school.

That they are part of something bigger than themselves—a global community.

Dreamline's impact on community is

Trust, acceptance, respect, and appreciation on the school level.

Understanding of community needs and passions at the administrative level.

"I think Dreamline is a great way to bring social media into connecting students that's going to really validate kids to say we may be different, but we're the same, and we share the same dreams."

—Catherine Mabry, Ferry Pass Middle School, Pensacola, Florida

Dreamline students:

- **reflect** on what they care for deeply—a dream or aspiration to share with the world
- **express** that dream in writing, often in poetry
- **support** the writing with drawing, painting, and other art

Creating a unique student-made Dreamline Flag.

Each Dreamline Flag gets:

- **physically** attached to a line that goes up in the school or out in the community
 - **digitally added** to the global Dreamline through the Dreamline mobile app—along with
 - **a voice recording** of the student reading their flag in one or more languages
 - **a map** of the school's location & **hashtags** for groups, topics, UN SDGs, etc.
- Only approved teachers post to Dreamline.

Flags are instantly posted, searchable, and sharable on dreamline.org and the app.

Curriculum Connections

WRITING: Comprehension, Vocabulary and Usage, Audiences, Voice, Word Choice

SOCIAL STUDIES: Map/Globe Skills, Citizenship

TECHNOLOGY: Technology and Creativity

PE/WELLNESS: Social/Emotional Wellness

ART: Creative Expression, Connections and Applications
